Developing Math Teachers as Professional Development Leaders for CCSS Implementation

Featuring Professor Hilda Borko and Clinical Associate Susan Million from Stanford University Graduate School of Education

Wednesday, January 15, 2014
12:00-1:00PM
555 Franklin Street, San Francisco
SFUSD Board Room on the first floor

Lunch will be served

Please let Laura Wentworth know if you plan on attending by sending an email to laura@caedpartners.org

Professor Hilda Borko and Associate Susan Million will give a presentation on their past work on developing math teacher leadership in the context of the Common Core State Standards implementation. Borko and Million worked with a cohort of SFUSD middle school math teacher leaders on developing their skills in leading the Problem Solving Cycle mathematics professional development. The Problem Solving Cycle is a series of three interconnected workshops for mathematics teachers, organized around a rich mathematical task. The task enables teachers to share a common learning, planning and teaching experience.
